

Seiko ColorPainter W-64s / W-54s

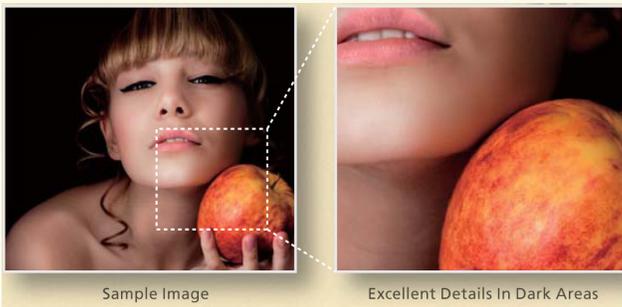

Midwest is pleased to offer Seiko ColorPainter W-64s and W-54s wide format solvent printers. While other prints lose density as they go faster due to small drop sizes and low viscosity inks, the new ColorPainter W-64s and W-54s use high viscosity inks and an ultra modern piezo-inkjet head to deliver outstanding image quality and no color density loss. SIIT's improved dot pattern enables razor sharp, crisp images at all print modes. Choose between high-production modes with unmatched print speeds, or high-resolution print modes with less grain.

Features & Benefits

- Higher Speed Printing with Rich Color Density
- More Details in Dark Areas - Better Backlit Graphics
- Easy to Use - CP Manager (included) Makes Control Easy
- No Daily Maintenance Required... Only Weekly!
- Uses Revolutionary Eco-Friendly IX Ink (Low-Odor and HAPS-Free)

**Available in 64" or 54"
Width Models**

Great for...

- Signs, Banners, Posters, Billboards
- Retail Display, Points of Sales Display, Exhibition Graphics
- Fleet Graphics and Public Transport Advertising
- Floor Graphics, Flags

Print Modes

Print Mode	Drop Sizes	Resolution	Passes
High Speed	3	540 x 360	4
Normal	2	540 x 540	6
High Quality	1	720 x 720	8
Max Quality	1	900 x 900	10

*Print Modes for 64" Model with GX Ink.
All print modes (left) print without color density loss.

4 or 6 Head Configuration Available

Choose a 6 color configuration (for best image quality) or a 4 color configuration (for lower ink costs).

Print on

Want to print on inexpensive vinyls and achieve the same photo-like results you get on expensive media? No problem! The ColorPainter W Series prints exceptionally well on vinyls as well as on canvas, fabrics, paper, polyester films, and even styrene.

Choose your ink: Low-solvent GX Ink or HAPs-Free IX Ink

GX Ink

Value-priced low-solvent ink with excellent color, glossiness, adhesion, dry-time, scratch resistance, and long-term outdoor durability. High-viscosity ink with higher pigment load means you can use less ink to produce rich color graphics.

Note: ColorPainter W printers can be switched from one ink type to another after installation.

IX Ink (HAPs-Free)

Low-odor, HAPs*-free ink with excellent color, glossiness, adhesion, fast dry-time and medium-term outdoor durability. No baking or expensive media required.

** HAPs (Hazardous air pollutants) are 188 specific chemicals identified by the US EPA and Clean Air Act.*

Advanced Technology

The ColorPainter W-64s and W-54s come equipped with a New Advanced High-Speed Piezo Printhead that uses **Dynamic Dot Printing Technology**, **Smart Pass Technology 3** and **Smart Nozzle Mapping**, as well as a **Media Tension Mechanism** to provide consistently great results.

Upgrade Options

High-quality Upgrade Options allow you to configure your printer exactly for your business and application needs now, or add them later. The Upgrade Options available for the ColorPainter W printers are:

- Integrated, optically-controlled takeup system
- Blower/dryer for improved dry times
- Upgrade to a full version of Onyx Postershop

ColorPainter Manager Software Included

CP Manager software comes free with every ColorPainter W printer. It allows you to monitor printer status, change temperature settings, check ink levels, or even see suggested maintenance - right from your PC.

Onyx RIPCenter Included

A special-edition SIIT Onyx RIPCenter RIP is included. Most industry RIPs also support the ColorPainter W-64s & W-54s printers. Consult with your Midwest Sales Rep to identify the best RIP for your needs.

Upgrade option: You can upgrade to a full version of Onyx Postershop.

Technical Specs		
Model	IP-5620 (ColorPainter W-64S)	IP-5520 (ColorPainter W-54s)
Maximum Media Width	64"	54"
Maximum Print Width	63.6"	53.6"
Maximum Media Weight	53 lbs	
Maximum Media Diameter	7"	
Maximum Media Length	164'	
Ink	Types	GX Low Solvent High-Viscosity Ink, IX HAPs-Free Low Solvent High-Viscosity Ink
	Colors	6 colors (C, M, Y, K, Lc, Lm)
	Ink Capacity	500 milliliters per color
Media	Vinyl, banner, backlit films, textiles, and other media designed for solvent printers	
External Dimensions (W x D x H)	112" x 33" x 50"	102" x 33" x 50"
